Heaven's Light is Our Guide

Rajshahi University of Engineering and Technology

Course Code

ECE 3112

Course Title

Microprocessor, Assembly Language & Interfacing Sessional

Lab Reports

Submitted to

Md. Omaer Faruq Goni
Assistant Professor
Dept of ECE, Ruet

Submitted by

Md. Tajim An Noor
Roll: 2010025

Contents

1 Experiment 1
1.1 A program to convert from Lowercase to Uppercase . . . . . .

2 Experiment 2
2.1 A program to convert from Uppercase to Lowercase . . . . . .

3 Experiment 3
3.1 A program to add two numbers . . . . . .

4 Experiment 4
4.1 A program to find min/max number from three numbers using registers.
4.2 A program to read two capital letters and displaying them in alphabetical order . . . . . .
4.3 A program to take a character as hex input and displaying it in decimal and prompting the user to continue or end program . . . . . .
4.4 A program to eead one HEX digit (A-F) and displaying on the next line in decimal . . . . . .
4.5 A program to create a rectangle using * and loops . . . . . .

5 Experiment 5
5.1 A program to take input from user as binary and output as binary . .
5.2 A program to take input from user as hexadecimal and output as hexadecimal. . . . . .

6 Experiment 6
6.1 A program to multiply two binary numbers, from user input, using shifting and output the result in binary. . . . . .
6.2 A program to take input from user as string and then output the string in reverse using stack . . . . . .
6.3 A program that takes some text as input and displays the text in the same word order but in reverse letters. . . . . .

7 Experiment 7
7.1 A program to reverse an array . . . . . .
7.2 A program to sort an array . . . . . .
7.3 A program to create and defined two segments in memory and then exchange the content of data segment and code segment . . . . . .
